

LOYOLA COLLEGE SCHOLARSHIP PROGRAM

Rationale

Loyola College is a community of students, parents and staff that strives to provide a holistic education that meets the needs and develops the gifts of each student. Loyola College strives to offer the best possible education for each student. The College community encourages all students to adopt a holistic approach to all dimensions of their education, including involvement in the classroom curriculum, the co-curriculum program and community activities.

Loyola College recognises and encourages students who strive for excellence in a wide range of disciplines. The College believes it is important that students develop:

- skills of creativity
- a spirit of enquiry
- self discipline
- critical awareness
- a sense of community
- skills in leadership
- a desire for academic excellence

Loyola College endeavours to support students through the implementation of a Scholarship Program. The Scholarship Program recognises and acknowledges students who take responsibility for, and are proactive, in the development of their own education.

Scholarships are awarded to the value of \$400 as a deduction from school fees in the following academic year.

Criteria

Students applying for scholarships are required to satisfy particular selection criteria. This criteria may encompass, but may not necessarily be exclusive to, the following areas:

Striving for Academic Excellence

Evidence that the student strives to enhance their performance within a range of academic subjects. Academic excellence may not be exclusive to students that receive high grades but may also include students that strive to improve their understanding of, and performance in, their studies.

Application to Study

Evidence that the student applies themselves academically across the spectrum of subjects studied. A copy of their current Semester 1 Report is required and must be attached to each application.

Role Modeling

Evidence that the student serves as a positive role model for his or her peers. This could include involvement in leadership positions or being recognized by the Mentor teacher and/or subject teacher as a student that demonstrates appropriate behaviours, ie. is punctual, wears the uniform correctly.

Involvement in the Co-curriculum Program

Evidence that the student has been involved in a range of activities other than prescribed academic subjects, e.g. Christian Service & Spirituality, Performing Arts, Sport, Public Speaking & Debating and Clubs & Societies. A full list of co-curriculum activities can be found on the front page of the Semester Reports.

Self Discipline

Evidence that the student adopts a disciplined approach to College life. This may be demonstrated through an organised approach to study, by finding a balance between involvement in both academic and social aspects of school and/or managing the demands of school with those of casual employment and sporting commitments.

Involvement in Leadership Opportunities

Evidence that the student has endeavoured to avail themselves of opportunities to develop skills in leadership. This may include being elected House Captain, serving on the LSC or College Committee, coaching sporting teams for competition, leadership in co-curricular or Mentor activities.

Scholarships Provided by Outside Organisations

In the event that an organization or company provides a specific scholarship, the criteria for selection may be determined by the nature of the scholarship provided.
