

Loyola College First Aid Policy

Loyola College is a school which operates with the consent of the Catholic Archbishop of Melbourne and is owned, operated and governed by Melbourne Archdiocese Catholic Schools Ltd (MACS).

Purpose

This policy is aligned with the First Aid Policy for MACS schools. The policy sets out the actions and resources required in Loyola College to ensure adequate first aid provision for students, staff and others in the school environment and when engaged in school approved activities.

Scope

This policy applies to students, staff, families and others at Loyola College.

Principles

The following principles underpin this policy:

- our school has a responsibility to ensure a safe working and learning for all members of school community.
- the principal and all staff have a duty of care to all students and the provision of adequate facilities and resources supports this in the school.

Policy

Loyola College is responsible for providing first aid assistance to students in the event of illness or a medical emergency.

First aid facilities

The principal ensures that first aid facilities are in place to meet the needs of staff, students and others in school environments and for school approved activities, including for off-site activities such as camps and excursions, and out of hours school events. The area has appropriate signage and is readily identified as.

First Aid is located at the corner of the library with appropriate signage.

The First Aid room is staffed by First Aid Officers during the school term. First Aid training including Anaphylaxis and Asthma and any relevant medical condition specific training is completed.

First aid kits

- location and contents of first aid kits This list is up to date in the CRT book
- First Aid staff will maintain the First Aid kits within the college.
- First Aid kits will be provided to staff for excursions and camps.
- A teacher on yard duty will either contact First Aid for assistance or arrange for student to be escorted to First Aid for treatment.

First aid staff and training

First aid officers provide initial care to injured students, staff or others in accordance with their level of training. They are not required to diagnose conditions or provide ongoing medical assistance.

The principal or their delegate will ensure that designated first aid officers and general staff have completed the recognised training. A first aid officer with current first aid qualifications must always be available to respond and assist an ill or injured person.

Where appropriate, a first aid officer will refer the ill or injured person to additional medical advice or assistance.

Additional staff with relevant training must be available depending on the student population, proximity to medical facilities, and the nature of activities being undertaken.

Training for anaphylaxis management is undertaken by all staff in the school.

All new Loyola College staff are directed to complete online Anaphylaxis and Asthma training.

Existing staff complete First Aid, Anaphylaxis and Asthma training as required.

A register of all first aid training is kept in the school by the Professional Development Co-Ordinator.

Schools are to include the following information:

- first aid officers in the school – roles and names
- level of first aid training do they have
- [include any other training that staff undertake, for example, training based on the first aid requirements of students in the school such as asthma, etc]

Administration of First Aid

School staff are responsible for providing first aid assistance to students in the event of illness or a medical emergency.

Our school staff who have been trained will administer first aid in accordance with their training. Trained staff can provide basic first aid with [DRSABCD](#).

In a medical emergency, staff take emergency action and do not need to obtain parent/carer consent to do so. Staff contact Triple Zero “000” for emergency medical services at any time.

On each occasion where first aid is administered to a student with a minor injury or condition, our school staff will notify parents/guardians/carers by contact details available at school. On each occasion where first aid is administered for a serious injury or condition, or in an emergency, school staff will attempt to contact parents/carers or emergency contacts as soon as reasonably practical.

Administration of First Aid for head injury

For students who have an impact to the head, suspected concussion, or observed concussion, our school staff can use [\[Concussion Recognition Tool 5 or recognised tool/app as chosen by the school\]](#) to help identify a suspected concussion.

If a student demonstrates symptoms of a [moderate to severe head injury](#) (neck pain or tenderness, double vision, weakness or tingling/burning in arms or legs, severe or increasing headache, seizure or convulsion, loss of consciousness, deteriorating conscious state, vomiting, increasingly restless, agitated or combative), the school is to call an ambulance immediately. If the [\[Concussion Recognition Tool 5 or recognised tool/app as chosen by the school\]](#) is used, the school must contact the parent/guardian/carer about the injury, even if the symptoms resolve. In the event of a suspected concussion, the parent/guardian/carer is asked to collect the student and have a medical assessment.

If a student has been diagnosed with a concussion/mild head injury, our schools will act on medical advice where this is provided to support a return to school and associated activities including participation in sport.

Staff will be guided by medical advice given to the the family upon return to school after a head injury.

Communication with parents /guardians / carers

The school requires parents provide up-to-date and accurate medical information relating to students, including information about conditions such as anaphylaxis, asthma and diabetes. Parents are requested to provide this information annually, prior to camps and excursions and if the child's medical condition changes since the information was provided.

Records of incidents, injuries and first aid treatment are documented. First aid records are retained within the school and in line with MACS policies for information recordkeeping, retention and disposal.

An incident report will be completed when first aid is administered. This report will be kept in the school and a copy provided for the parent / guardian / carer of the student.

Parents / guardians / carers are notified as soon as possible if required to collect an ill or injured student from the school. When a parent / guardian / carer cannot be contacted, First Aid will contact the emergency contact nominated by the parent / guardian / carer.

- The Deputy Principal Staff & Compliance will work in conjunction with First Aid about how this information is gathered and how parents are notified of this annually and upon acceptance to the college.
- Procedure for notifying parents after an incident, injury or when a student becomes ill at school

This policy and other school policies and procedures for the distribution of medication and management of students with medical conditions are published on the school's website and via communications to parents.

Definitions

First aid

The emergency treatment provided to employees, students and others who suffer injury or illness while at work/school, using the facilities or materials available at the time. In the case of severe injury or illness, members of staff are not required to diagnose or treat the condition apart from carrying out the appropriate first aid procedures. Diagnosis and treatment are the responsibility of the ambulance officer or medical practitioners.

First aid officers

Staff members who have been trained in first aid and are designated to provide initial care of ill or injured staff, students or others.
